

Aluminum Sign Holder

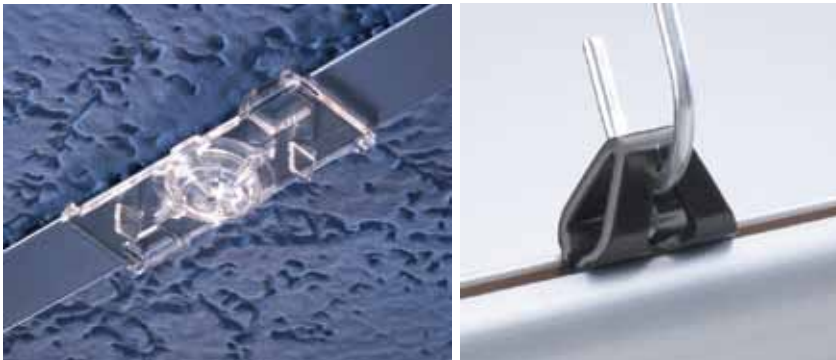

A finished look for a variety of substrates.

This sturdy, durable profile is an ideal solution for most any graphic. This aluminum holder can be used alone for 3/16" foamboard, with pegs to hold thinner substrates, or with 1/4" dowels for fabric.

- Sturdy enough for permanent or semipermanent installations.
- Eliminates Bowing.
- Create larger displays by connecting multiple lengths.

Always cut to your exact specifications.
